

**VOLTEIS®**  
PLUG & DRIVE®

## PRESS RELEASE

May 2011

### **VOLTEIS®**, the latest arrival of the legendary!

Once upon a time there was VOLTEIS®. To be able to drive freely a little personalised fast car, which dodges in and out anywhere, costs nothing to maintain, does not pollute and allows you to admire the landscape in total peacefulness.. this a luxury signed VOLTEIS®: the very first electric 4X4 that is playful and practical.

This leisure vehicle which is both "friendly" and "ecological" - unique in the world - is manufactured by the French

company Electric Car. A fashionable concept for a new way of life which meets the present and future energy concerns.

VOLTEIS® : it represents the freedom to drive differently, the freedom to enjoy oneself, the freedom not to pollute!

### **VOLTEIS®**, the art of living

#### • A comfortable life day to day

VOLTEIS® stands out as the extra class one companion for making short journeys everyday, in town and in the country, by the sea and on mountain roads, in summer and in winter.

Going to the market, going to the beach through the dunes or taking the children to the foot of the ski slopes with complete peace of mind... This ecological "delight" becomes indispensable on busy roads as well as off the beaten track where its all-terrain qualities are greatly appreciated!

#### • An ultra-personalizable and timeless look

Yellow & khaki, ivory & chocolate, spotlessly white? With radio and leather or wood finish? ... It is tailor-made!

VOLTEIS® is an ultra-personalizable 4X4 with a wide choice of options and a range of 256 colours for the bodywork and 70 colours for the upholstery.

You want an open top? Its entirely adjustable and detachable top allows you to use it in any season, depending on the weather.

With its vintage look, the VOLTEIS® offers a 21st century version image, both pleasant and authentic!

#### • The pleasure of driving simply

Nothing could be simpler and more practical: without a clutch or gearbox, driving becomes a real joy.

The silence reinforces the sensation of gliding and freedom. Its "Plug & Drive" system – plug it in and drive! – allows it to be completely recharged in any standard plug in 6 hours.

The VOLTEIS® is a pleasure day after day, with a use as intuitive as an MP3 or a mobile phone!

#### • A concept in tune with any company

For any company concerned with ecology, the VOLTEIS® represents the ideal solution: a second vehicle which is clean and silent, capable of being of service in any context. As much at ease in the hotel business, large farming operations and natural parks as on industrial or service industry sites, it makes it possible to both look after the customers and the company image and to visibly express one's commitment to the environmental cause.

**ELECTRIC CAR / VOLTEIS®** - 132 rue de Soras - 07430 DAVEZIEUX

Tél. +33 (0)4.75.33.71.91 - Fax +33 (0)4.75.33.40.41

SAS au capital de 1.466.454 € - SIRET : 513 799 197 00019 - APE : 4519 Z - TVA Intracommunautaire : FR91 513 799 197

## **VOLTEIS®**, a personality looking towards nature

The VOLTEIS® does not emit any pollutants and can be driven in Olympian calm because it is silent when stopped just as when starting, demonstrating exemplary sound discretion when it is moving.

A very "economical" ecology also, because the VOLTEIS® only costs 1 euro per 100 km and requires virtually no maintenance and no servicing.

## **VOLTEIS®**, a know-how made in Ardèche

The VOLTEIS® is equipped with an onboard state-of-the-art technology system, developed by the Ardèche company, Electric Car. It is thus the first to offer an approved electric 4X4.

A know-how making the most of ruggedness, reliability and durability but also roadholding thanks to its 4-wheel drive guaranteeing optimum safety, whatever the road surface.

Availability and prices:

VOLTEIS® X4 VS2 (4 seats) : 70 kph and average autonomy of 60 km / 24,750 euros incl. tax

VOLTEIS® X2 VS2 (2 seats) : 45 kph and average autonomy of 70 km / marketing envisaged at the end of the year.

The distribution network is currently in place in France and extended to Spain, Portugal, Germany, Switzerland, the Netherlands, Martinique, St Martin, St Barthélémy, Guyana, Mauritius and Réunion Island.

## **About VOLTEIS®**

VOLTEIS® started in Davézieux, in Ardèche, in July 2009, from the desire to develop the first approved 100% electric 4X4 and 100% "Made in France". ELECTRIC CAR, the main shareholder of which is the FRAPPA Group established in 1845, was then created.

ELECTRIC CAR produces and markets the VOLTEIS® X4 VS2 and VOLTEIS® X2 VS2 cars, the first electric 4X4 approved by the European Union entirely manufactured in the Rhône-Alpes region.

The VOLTEIS® X4 VS2 is approved by the ADEME.
